# Undisclosed contribution for the set up of Animal Sanctuary in Coimbatore

Ahmedabad: Shailendra Singh's One India. My India, rally has caught the imagination of many who want to celebrate the true spirit of India. As the numbers grow of those following Singh's rally which started from Kanyakumari on Gandhi Jayanti, there are many who are especially touched by Singh meeting with unsung heroes in every city that he is visiting.

Shailendra Singh entered the city of Coimbatore and met young Sai Vignesh who is an animal lover and activist and wants to start a sanctuary for abandoned animals

Speaking of the meeting Shailendra Singh says, "It was wonderful to meet this young activist and animal lover who has been trying to save abandoned animals from the age of 5. So inspiring to see how somebody so young has such a clear vision and heart full of love for others.

We have also learned that Shailendra Singh, in fact, give an undisclosed amount to Sai Vignesh to help in the setup of his dream project. Sai Vignesh has been consistently trying to raise funds to set up the sanctuary and has been crowdfunding his efforts. (19-10)

# Gujarat Governor Devvrat's dream project of Organic farming

is to follow Prime

Minister Narendra

Modi's vision to

increase agriculture

production and the

income of farmers by

Gujarat

Earlier we use to guide farmers by telling them to use steal fertilizers but now there use organic ways of farming. Organic agriculture is an ecological production management system that promotes and enhances

biodiversity, biological cycles and soil biological activity. It is based on minimal use of off-farm inputs and on management practices that restore, maintain and enhance ecological harmony. Today, consumers purchase organic foods for many different reasons. There are many who want to buy

food products that are free of chemical pesticides or grown without conventional fertilizers. Some simply like to try new and different products. Product taste, concerns for the environment and the desire to avoid foods from genetically engineered organisms are among the many other reasons some consumers prefer to buy organic food products. One thing is clear that there is low awareness at the producer level on the difference between conventional farming and organic farming. At the consumer level there is confusion between natural and organic products and limited understanding of the health benefits of organic food products. The increasing number of suicides by farmers is due to their dependency on fertilizers, which take away a huge portion of their earnings, rendering them indebted to moneylenders.

VADODARA: The National Institute

implementing the bullet train

Employment

Limited (NHSRCL) which is development

As environmental awareness spreads, organic food and the organic farming that supplies its ingredients have been attracting a lot of attention due to their direct relationships to nutrition and the environment, both essential for our survival. We all are aware that there is an overuse of fertilizers, pesticides and water, which is at the root of all problems today. No one is conceptually against organic farming. But our knowledge and expertise in the "science" of organic farming is inadequate to realise the productivity potential of our high-yielding crop varieties.

Organic agriculture is the best insurance policy that India can have for its population with better performance on productivity,

environmental impact, economic viability and social well-being. Chemical farming, which involves spraying of pesticides and use of fertilizers, is not only financially burdening the farmers, but also wreaking havoc on the soil and ruining the health of the people and wasting water.

Natural farming foresees zero-budget agriculture practices, is a better option than even organic farming. Food produce from organic methods also has more nutrients and even has a better taste compared to food cultivated through conventional methods.

He said that it was the need of the hour to promote and adopt organic farming which was possible only when every farmer starts rearing domestic cows. He said that one cow could be helpful in farming 30 acres of land and added that it would improve fertility of the soil, producing maximum yield by using minimum water

and getting remunerative price of their product The aim of the project He said that domestic cow was useful in every respect and with the help of traditional farming, revolution in agri sector could be generated.

The Governor has said that the number of diseases had increased due to excessive use of chemical farming. He said that best part of adopting natural system of farming was that it has no financial implication and the farmers would not have to depend on the market as the organic fertiliser can be was prepared naturally by the farmer himself. He said that in natural farming, the farmers should be encouraged to rear domestic cows instead of

2022. - Acharya hybrid Devvrat - Governor of imported from

that the cows found in hilly areas were significant in many ways. He said that to produce

crops in a limited area, the process of natural farming should be adopted. Vinod Chandrashekhar Dixit dixitpatrakar@yahoo.in B-15 Jyoti-Kalash Society,

Home and Kitchen Shopping Festival was organized to promote offline sales and Women Empowerment

Ahmedabad: Nowadays, as the online shopping market is moving at a fast pace, there are a number of incidents ranging from service to fraud. According to one research, 1 in every 4 people become a part of online fraud. and during online shopping around 24% of people directly face online fraud to avoid such cases, A three-day shopping festival has been organized till 13th October, at Sindhubhavan Hall Ahmedabad, Home & Kitchen Shopping Festival, for the purpose of finding a good platform for an festivals in the city. (13-9)

offline business. Ahmedabad mayor smt Bijalben Patel was also presented at the inauguration.

3

Shopping Festival organiser Nishaben Shah said that "In this shopping festival amdavadis will get more than 250 brands and their more than 10,000 products under one roof in which people can buy home appliances, kitchenware, home decor and lot more. This shopping festival is organised by women and for the women which are a very unique thing among all the shopping

## PGI INDIA LAUNCHES PLATINUM JEWELLERY PIECES FOR MEN

marks the emergence of a new breed of men - 'men of character'! Character that is defined by values that are hard to find and abide by. They seek a greater purpose, they look for stature & not just status, meaning & not just material wealth. They don't expect a life of privileges handed over - rather they build their own path with their values intact. They have the courage to pursue their dreams and bounce back if defeated, the ability to stand their ground & never retreat, the temperament to remain calm in the face adversity, they follow their belief system no matter the outcome. Their curiosity to learn and humility to carry people along & even get others to rally around them is powerful statement. (19-10)

Ahmedabad 'Men of Platinum' remarkable. They are a source of inspiration - the men that most men aspire to be. Men today carry these set of rare values as markers of their character. And they have discovered Platinum, the one metal that truly captures the essence of their being.

Today, platinum increasingly the choice of men who want to differentiate themselves from the crowd. Choosing platinum is about doing something that's not done before. Of not conforming to the expected. It's about leveraging its quality of resilience, of permanence, of subtlety. Of setting one's own standards.Of navigating rough seas undaunted. To be guided by one's true north. To make a
