"We don't feel any fear
here. And Pakistan doesn't
have the guts to bend our hair
or raise its eyes against us.
It can't attack, it can only bluff. It doesn't even have enough diesel for the tanks that come diesel for the tanks that come to fire missiles," says Kanubha Jalamsinh Jadeja of Dholavira village, which is just 40 km from the Pakistan border.

Even in a war-like situation between India and Pakistan, the spirit of the people of the border villages of Gujarat remains intact. villages along the border, which is more than 500 km long, from Banaskantha to

long, from Banaskantha to Kutch district, and interacted

Kutch district, and interacted with the people there. "There is nothing to fear. We are naturally gifted."

The second old man said, "Mother Nadeshwari sitting here is protecting us and the soldiers. We are not going to face any trouble. Our India is going to be victorious."

The priest said that the people of the village are keeping watch all night.

keeping watch all night.

Arvindbhai Trivedi, the priest of the Shiva temple of priest of the Shiva temple of the fourth Nesda village, said, "We do not feel any fear because Nadeshwari Mata is sitting on this side. Our village is a village of Kshatriyas. Therefore, there is no need for security here: After the collector's instructions, the lights of the village were turned off. The youth of the village were also told not to go out and even talk on mobile phoness. There is nothing to fear right now: mobile phones. There is nothing to fear right now:

the village continues. We have also formed a group in the village to help the army.

e village to help the army. A young man originally om Phalodi district of Rajasthan, working at the Khawda Solar Plant, said, "No, no. What is there to fear from Pakistan? We don't even consider Pakistan a country. It doesn't even deserve to

attack us."

How is the situation in Lakhpat village of Kutch?
There is no fear among the people of Lakhpat village

the people of Lakhpat village of Kutch, which is located on the Pakistan border. The people here said that they are not afraid because of the army and the officials. Peaceful atmosphere in Kuran village of Kutch Kuran village to know the current situation on the Kutch border of Gujarat, which is connected to Pakistan. The Pakistan border is 36 kilometers awav from here.

kilometers away from here. We are with the army: Local Kuran resident and Local Kuran resident and driver Hareshgar Gosai told Divya Bhaskar that the situation is fine at the moment. We are not afraid. No one in the village is afraid either, everyone is busy with their work. We have to die here and live here too. We are with the army. We will provide whatever support the army upening.

army needs. Gopalji Sodha runs a Gopalji Sodha runs a grocery shop in Kuran village. He told that the situation is very serious right now. We will do whatever service the army is doing. What should we be afraid of since the army is with us? We will not leave here until the government says so.

knengaronal marwad nas been living in Kuran village for years and earns a living by farming. He told Divya Bhaskar that we are not afraid at all because the BSF, Army, and Police are with us

Traffic Chaos - Let people learn Road etiquettes

ndrashekhar Dixit (dixitpatrakar@yahoo.in)

Road safety is a concern for all irrespective of gender. It is a matter of fact that lack at the root of the traffic problems: poor driver education. The road users should avoid driving recklessly. The other example of neglecting while driving or ofliding are using hand phone while driving, driving when when the problem is a size of the problem is the problem is the problem is the problem of the problem is t you are sleepy, driving under the influence of drugs or alcohol and playing loud music while driving. If the authorities are interested in proper traffic management, the RTOs need to be modernized and upgraded.

It is a matter of fact that lack of etiquettes on the road It is a matter of fact that lack of etiquettes on the road is seen is going to be much dangerous for the lives of citizens. Road safety is a priority and concern to all of us and there is a need of regularly reinforcing this message. The true costs of accidents are rarely assessed, and can only be of full value if assessed to formulate future projections of loss probability and effective safety management. It seems as if no one is interested in striking

by taking some steps such as use Bluetooth phone devices when receiving or making a call while driving. If the authorities are interested in authorities are interested in proper traffic management, the RTOS need to be modernized and upgraded. Duty timings of traffic cops should also be extended to man this busy junction to check erring motorists. Many people drive at 6-7 in the evening with their high-beams on, which can blind the driver on the opposite side. Also, lane-driving must be made mandatory. Drivers must be sensitized about the rights of the pedestrians. Roads are a mess today not

rights of the pedestrians. Roads are a mess today not because of the bad quality of work, but bad planning. Lane sizes, pedestrian crossings, traffic signals or left-turns are poorly designed. We should

forms. Many people drive at 6-7 in the evening with their high-beams on, which can blind the driver on the opposite side. This is a bad practice as it can result in accidents

accidents.
There's no concept of lane-driving. All they understand is that the road is

hour. SC has also expressed its concern at the high number of road accident fatalities - 1.1 alsh - every year in India. Stringent laws against drunk and rash driving, proper and effective enforcement of the laws and the tough and income including in dealing a contract of the laws and the tough and the string in the laws and the tough and the string in the laws and the tough and the string in the laws and the tough and the string in the laws and the tough and the string in the laws and the string in t sincere judiciary in dealing with the accidents alone could ultimately have a positive effect in dealing with the ever effect in dealing with the ever growing accidents. Cops tend to overlook the bikers who ride without a helmet and indulge in rash driving, but they fine someone, who may be in a hurry to reach hospital, for over speeding. If people drive more sensibly, ours roads will be safer for all. Let's stop giving excuses, instead look for solutions on the basis of suggestions received from experts and concerned citizens. People understand is that the road is their race track and they need to be the first one even if that means overtaking a guy who just gave the indicator to late a turn. At traffic signals, people taking a right-turn tend to stop in the middle of the lane, thus blocking the traffic. If we go through the statistics of road accident data 2015 reveals that around 1,374 accidents and 400 deaths take place every day on Indian roads, resulting in 57 accidents and loss of 17 lives on an average every 380015)

How is the lion count done?

Massive fire breaks out in Manish Market

Amreli, The 16th phase of the Asiatic Lion Census has started from Sasan Gir yesterday. From 10/05/2025 to 13/05/2025, an area of 7235,000 square kilometers of 11 districts and 58 tallukas of the state will be covered in four days. 735 units, 112 sub-zones, 32 zones and 8 regions have been created for the census. Then the question arises in all of our minds that how is the census done by identifying each census done by identifying each and every lion separately..? How census done by identifying each and every lion separately. Phow can double counting of lions be avoided. Pro get answers to many such questions regarding the lion census, Divya Bhaskar Digital's reporter Jaydev Varu also joined the Forest Department team in the lion census. Bhaskar reporter has out answers to many such

Department team in Rajula, Jafrabad and Pipavav Port Coastal Belt areas of Amreli district. Let's read about it in detail...This year, modern technology has been used by the forest department in the lion count this year. Digital cameras and camera traps, GPS-GIS technology, radio collaring method and Al-based data analysis software are being used. Direct bit verification and block count method are also being used in the count. The forest department is counting lions in the entire area in the field by volunteers including zone-wise officers, enumerators, assistant enumerators and observers. To record and verify the lions, record and verify the lions, prescribed sheets and maps of the area assigned to them have been given.

Water crisis hits 1,500 residents in Ganeshnagar, a resettlement colony in Ahmedabad

They have to rely on tankers after the local borewell became defunct. The area was established to house

people displaced by the Sabarmati Riverfront Development Project post-

steady water source. The delay is reportedly due to pending approvals typically processed through quotation-based work orders.

Water tankers have become the only source of supply. Fights often break out as residents, including children, queue up with containers. Many households are forced to fetch water from other areas. Originally, around 170 houses were allotted in Ganeshnagar, but the population has since the population has since grown with the rise of unauthorised structures—a

people displaced by the Sabarmati Riverfront Development Project post-2001.

Despite repeated requests, the Ahmedabad Municipal Corporation has not approved a new borewell, leaving residents without a multiplace of the sabandoned by the 'Nal Se Jai' proper drainage, or consistent municipal attention.
